Tools

- Git, GitHub, VS Code

Other Skills

- Problem Solving
- Teamwork
- Self-learning

NGUYEN VAN KHANH

Web Developer

Information Technology student with a strong foundation in programming and software development. Passionate about building real-world applications and continuously improving technical skills. Seeking an opportunity as a Fresher Developer to gain practical experience and contribute to a professional team.

Career Objective

Short-term:

Seeking a Business Analyst position to apply analytical and technical skills...

Long-term:

To become a professional Business Analyst specializing in IT systems...

Education

Software Engineering

2023 - 2027

Dong A University

GPA: 2.8/4.0

Experience

2025

Face Mask Detection System (Deep Learning Project)

- Developed a face mask detection model using Convolutional Neural Networks (CNN)
- Applied Python, TensorFlow, and OpenCV for image processing
- Trained and tested the model with custom datasets
- Achieved high accuracy in classifying masked and unmasked faces
- Implemented real-time detection via webcam

2024

Student Management System (Web Application)

- Built a web-based system to manage student information
- Developed backend using Java Spring Boot
- Designed RESTful APIs and handled CRUD operations
- Integrated SQL Server for data storage
- Improved data management efficiency and usability

2024

Personal Portfolio Website

- Designed and developed a responsive personal website
- Showcased projects and technical skills
- Used HTML, CSS, and JavaScript
- Focused on clean UI and user-friendly experience
