PHAM THI KIM CHI

Software Engineer Intern

Education

DONG A UNIVERSITY (2023 - Now)

Software Technology

Academic Standing: Good

PERSONAL PROJECTS

FINANCIAL MANAGEMENT SYSTEM (FULL-STACK)

- **Backend:** Developed secure RESTful APIs using Java Spring Boot, focusing on business logic for transaction processing and implementing Spring Security for user authentication.
- **Database:** Designed an optimized SQL Server schema to manage complex financial data, ensuring data integrity and efficient querying for monthly/periodic reports.
- **Frontend:** Built a responsive interface using Flutter (and Web/Mobile views), prioritizing UX/UI to help users track expenses and incomes visually through charts.
- **Workflow:** Managed source code with Git/GitHub and performed rigorous API testing/documentation using Postman to ensure system stability.

EXPERIENCE

APPRENTICESHIP | CNPT TECHNOLOGY JOINT STOCK COMPANY (2024 - 2025)

- Gained hands-on experience with professional software development workflows.
- Studied team collaboration and Clean Code standards in a real-world corporate environment.

CAREER OBJECTIVE

A dedicated Software Engineering student with a core focus on Java Spring Boot. I am passionate about developing Backend systems and have a strong interest in solving logical problems through clean code. My goal is to join a professional team where I can apply my knowledge, learn from experienced mentors, and contribute to building high-quality software solutions.

Skills

- Languages: Java (Strong), JavaScript, Python, Dart, HTML/CSS.
- Frameworks/Tech: Spring Boot (RESTful APIs, Security), Flutter, MySQL, SQL Server.
- Tools: Git/GitHub, Postman, VS Code, IntelliJ IDEA.
- Database: SQL Server (Query Optimization), MongoDB.
- Soft Skills: Self-learning, Teamwork, Problem-solving.

Language

- English - B1

BACKEND DEVELOPER INTERN APPLICATION LETTER

Dear Hiring Team at Visnam,

My name is Pham Thi Kim Chi, a Software Engineering student at Dong A University. I am writing to express my strong interest in the Backend Developer Intern position at Visnam.

As a Software Engineer Intern, I am focusing on mastering the Java/Spring Boot ecosystem. Currently, I am researching and developing a Financial Management System. This project has provided me with practical challenges in designing SQL Server schemas and implementing RESTful APIs to handle transaction logic. Even though the project is still in progress, it has significantly improved my understanding of data integrity and backend architecture.

I am a proactive learner, committed to improving my coding skills and researching technical documentation in English (B1 level). I am eager to bring my current knowledge and strong learning spirit to Visnam, where I can contribute to your team and learn from experienced professionals.

Thank you for your time and consideration. I look forward to the opportunity to discuss my application further.

Sincerely,

Pham Thi Kim Chi
