EDUCATION

DONG A UNIVERSITY

MAJOR: INFORMATION TECHNOLOGY

2023 - Now

GPA: 3.2/4.0

OBJECTIVE

Applying for a Tester Intern position to apply software testing knowledge in completing assigned tasks effectively, gain hands-on experience, and contribute to improving product quality. Continuously improving technical, analytical, and problem-solving skills, especially in identifying and resolving defects. In the future, building a strong foundation in software testing and becoming a professional Software Tester.

WORK EXPERIENCE

Danang Information and Communication Technology Center 06/2025-08/2025
Location: 15 Quang Trung
Role: UX/UI Intern

- Gained fundamental knowledge of UX/UI design principles
- Used Figma to design wireframes and user interface layouts
- Researched and documented UI/UX design processes
- Built a personal website using a low-code platform (Framer)

PROJECTS

E-commerce Website Testing (Automation Exercise)

- Analyzed core functionalities including Login and Registration
- Designed and executed 20+ test cases for key features
- Performed manual testing to validate system behavior
- Identified and documented defects with clear reproduction steps
- Managed test cases and bug tracking using Excel
- Conducted basic API testing using Postman
